Domestic data transfer is included in the monthly subscription fee for all DNA phone subscriptions that include a data service. All domestic calls to domestic landline and mobile networks, as well as standard-priced domestic text messages sent to domestic mobile phone numbers during the invoicing period, are included in the monthly subscription fee. Multimedia messages are also included in the monthly subscription fee for the following subscription types: DNA Rajaton 5G 1000M, DNA Max 4G Rajaton, DNA Rajaton 5G 600M, DNA Super 4G Rajaton, DNA Nopea 4G Rajaton, DNA Rajaton 5G 400M, DNA Rajaton 5G 200M, DNA Rajaton 200M, DNA Nopea 4G Rajaton Plus, DNA Nopea 4G Rajaton Lite, DNA Rajaton 4G 10M, DNA Rajaton 4G Super, DNA Rajaton 4G, DNA Rajaton 4G Teho, DNA Rajaton 4G Teho Extra and DNA Rajaton. In addition to the service number charge or international call charge, a mobile call charge (mcc) is charged for calls to service or corporate numbers as well as international calls to non-EU/EEA countries. The mobile call charge is €0.09/min (€0.169 from 2 October 2023). Standard-priced text messages sent from Finland to non-EU/EEA countries are €0.09€/pc and multimedia messages €0.40/pc. Calls made via the DNA Multi-SIM additional service are billed as calls made via the main subscription.

International calls and messages: Calls and messages from Finland to abroad are charged according to a separate price list; see www.dna.fi/ulkomailla.

Usage abroad: The default balance limit for data transfer abroad is €60/ invoice period. When traveling in EU/EEA countries, calls as well as text and multimedia messages sent to standard-priced numbers in Finland, the country of residence or other EU/EEA countries are charged according to domestic prices. Calls and messages from Finland abroad are always charged according to a separate price list. Data transfer within the EU data package is free of charge in EU and EEA countries. The data transfer that exceeds the EU data package, is charged with the EU-surcharge €2.232/GB. If the subscription type does not only include unlimited data transfer in Finland, but also in the Nordic countries (Sweden, Norway, Denmark) and the Baltic countries (Estonia, Latvia and Lithuania), then data transfer within these areas do not consume the subscription-specific EU data package. More information: www.dna.fi/EUroaming. All roaming charges: www.dna.fi/ulkomailla.

For sending and receiving multimedia messages outside of the EU/EEA, the foreign operator’s data transfer costs will be charged in addition to the unit price of the multimedia message.

WiFi calls: WiFi calls are only possible with certain subscriptions and require a device that support this feature. WiFi calls are always charged as calls made from Finland. Calls and messages from Finland abroad are always charged according to a separate price list.

Call forwarding: In Finland, call forwarding to DNA Voicemail and to DNA mobile phone subscriptions is free of charge. Other call forwarding is charged according to the price list. Call forwarding within the EU to your own DNA Voicemail is free of charge. In other countries, call forwarding is charged according to the international price list.

Calls to DNA subscriptions: charged according to the operator’s price list. Calls to voicemail are charged according to the standard price for a domestic call that is applicable to the subscription type in question.

Calls to voicemail from abroad are charged as other standard-priced calls made from the country in question to landline and mobile phone numbers in Finland.
