DNA Investor presentation
January 2019

Forward looking statement

This presentation contains, or may be deemed to contain, statements that are not historical facts but forward-looking statements. Such forward-looking statements are based on the current plans, estimates and expectations of DNA's management based on information available to it on the date of this presentation. By their nature, forward-looking statements involve risks and uncertainties, because they relate to events and depend on circumstances that may or may not occur in the future. Future results of DNA may vary from the results expressed in, or implied by, the forward-looking statements, possibly to a material degree. DNA undertakes no obligation to update this presentation after the date hereof.

DNA in brief

Business review

Q3 and January-September 2018 business review:

- Highlights of the third quarter of 2018
- Key operational KPIs and development of subscription base

Financial review

- Key figures' development

Strategy and outlook

- DNA's strategic targets and market outlook for 2018
- Financial targets and dividend policy

Appendices

DNA in brief

DNA is one of the leading Finnish telecommunications groups

- Cost-efficiency
- Streamlined
- Agile
- Innovative

OUR VALUES

FAST

DNA's customers receive quick and helpful service

STRAIGHTFORWARD

DNA's approach is clear and responsible

BOLD

We are direct, open-minded and ready for change

Over 4 million

Mobile communications and fixed network customer subscriptions

EUR 886 million

Net sales in 2017

1,601

At the end of 2017, there were **1,601 employees** working with DNA

Customer

is in the center of DNA's strategy

TV

Finland's largest cable operator and the leading pay TV provider

EUR 124 million

Operating result in 2017

64 DNA stores

Finland's most extensive retailer of mobile phones, other mobile devices and mobile subscriptions

Strong employee satisfaction

The personnel's satisfaction with DNA as an employer is at a record-breaking high level

DNA had an excellent start as a listed company

- Trading in the DNA share began on the Nasdaq Helsinki Stock Exchange on November 2016
- DNA has today over 14,000 shareholders
- Market cap is EUR ~2.3 billion (28 December 2018)

Largest shareholders, 31 December 2018	% of shares
Finda Telecoms Ltd	28.3
PHP Holding Ltd	25.8
Ilmarinen Mutual Pension Insurance Company	3.9
Lohjan Puhelin Ltd	1.7
Elo Pension Company	1.4
Mandatum Life Insurance Company Ltd	1.1
Viria Plc	0.8
The State Pension Fund of Finland	0.7

Ownership structure

- Households
- Financial and insurance institutions
- Other Finnish institutions
- Nominee registered and non-Finnish holders

Long-standing growth in net sales with highly successful track record in acquisition's integration

– both B2C and B2B with a challenger mindset

DNA's net sales have increased steadily

2001
DNA launches mobile services

2003
DNA acquires Telia Mobile Finland

2007
6 local fixed line operators merged to DNA

2010
DNA acquires Welho, the leading cable company in Finland

2011
DNA acquires Forte Netservices

2013
DNA acquires PlusTV, the leading pay-TV operator

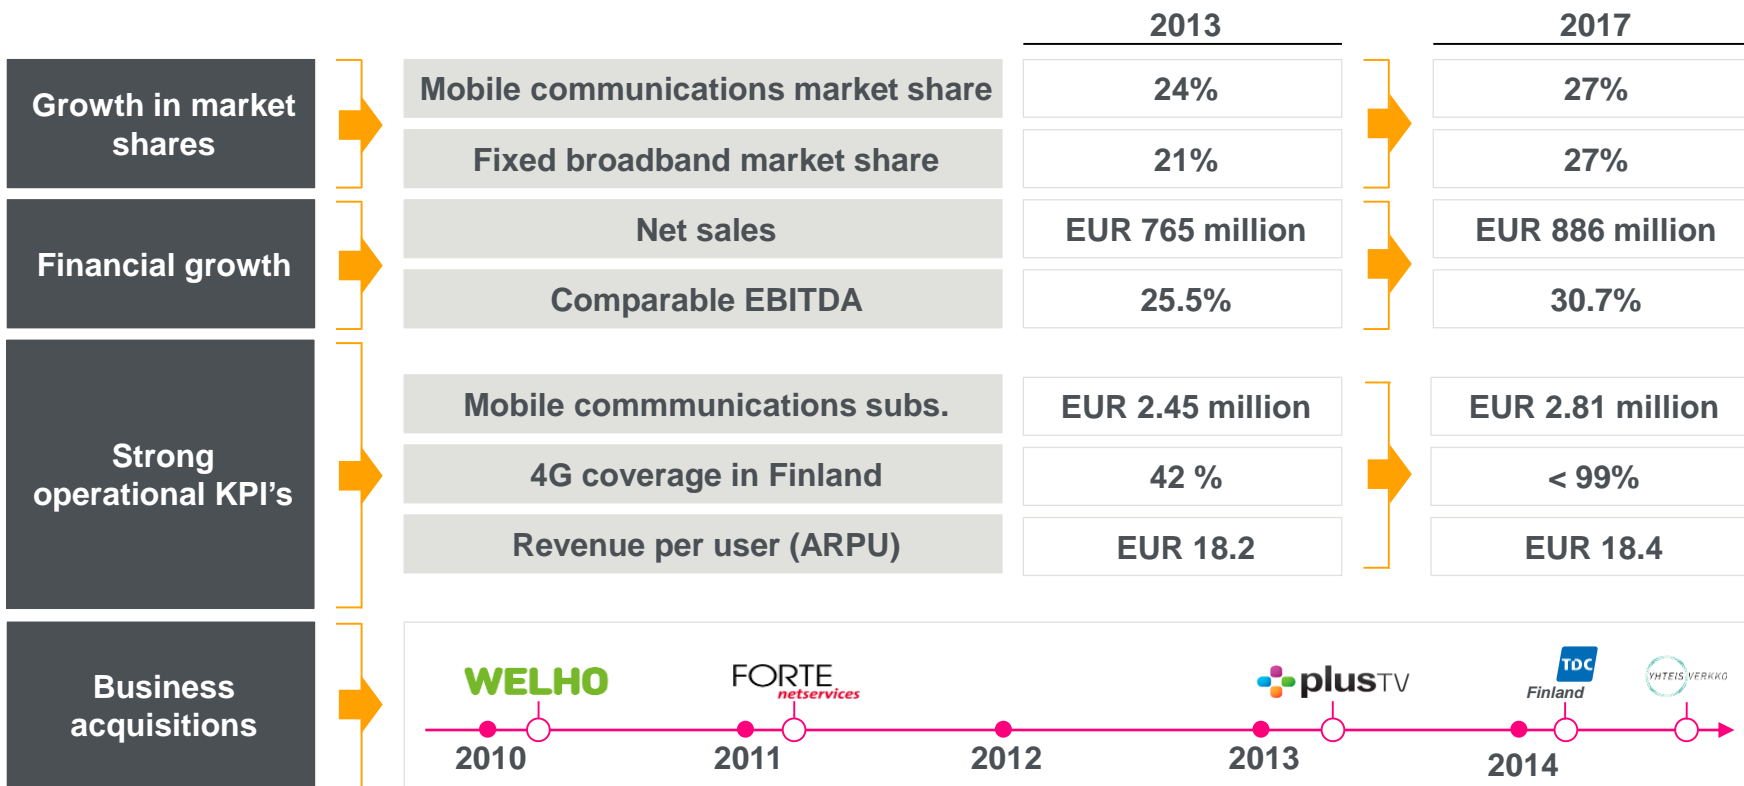

2014
DNA acquires TDC's Finnish operations & Finnish Shared Networks Ltd is founded

2015
All DNA business operations under a single brand

2016
DNA becomes a listed company

2017
DNA's net sales and operating result reach record levels

Strong development in DNA's business

Telecommunications market in transition

The **exponential growth of mobile data** has been an important industry trend in recent years.

The emerging **Industrial internet applications** will further expand the volume of data traffic, providing new kinds of growth opportunities.

Trend 1

The demand for **faster and better-quality connections** is growing at an increasing pace – mobile broadband traffic volumes are fuelled by the growing number of smart phones and other smart devices.

Trend 2

Customers lead increasingly **digital lives** and want a seamless experience regardless of the service channel

Trend 3

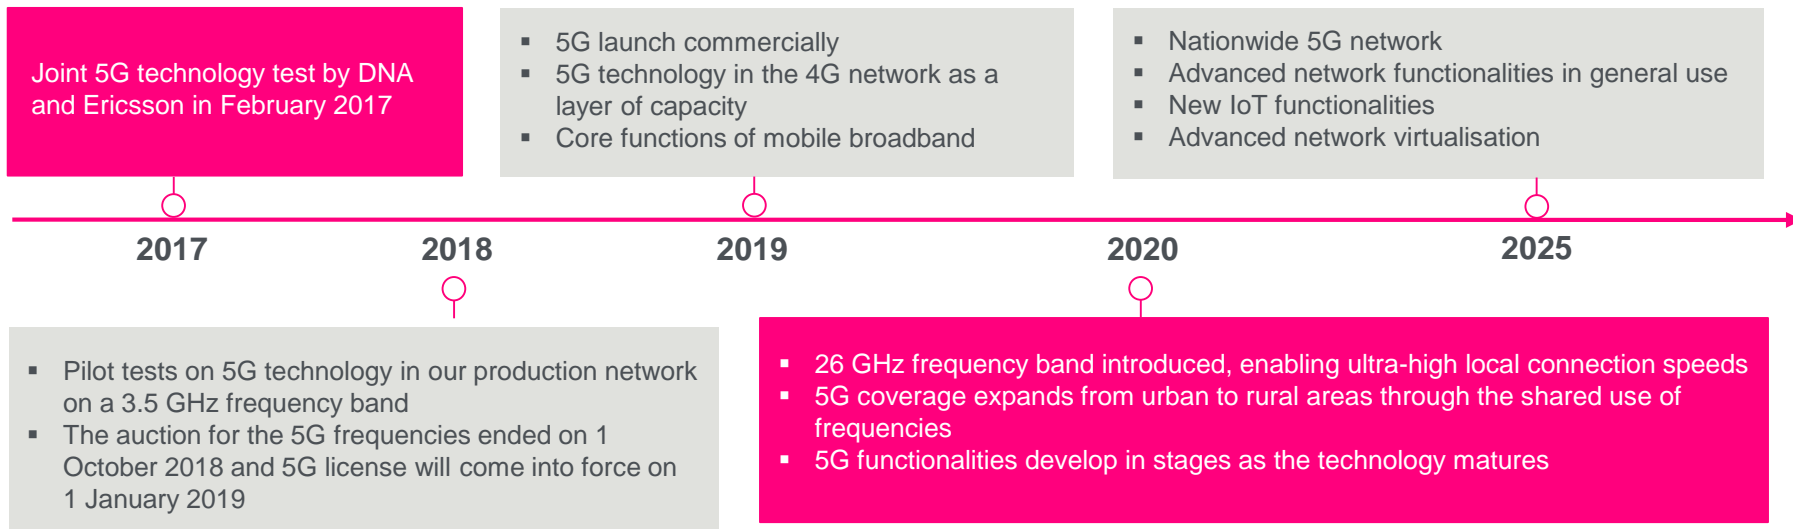

The strong growth of the variety of services and smart devices continues – **the best global services will gain a stronger foothold**

Trend 4

Mobile working, digitisation and the Internet of Things will make business more flexible and productive

DNA wins 5G frequency band – 5G will multiply data transfer speeds

- DNA has been preparing its mobile network for the 5G era since 2016 and 5G services will be provided to customers during next year, enabling connection speeds of over 1 gigabit per second
- On 1st of October DNA won 5G frequency band in the Finnish Communications Regulatory Authority's frequency auction for a price of EUR 21 million
- In first phase, 5G will enable fast and stable connections in many properties that cannot get an optical fibre connection

Finnish telecom market development

– High potential to upsell highest speed connections

Source: Ficora
 FttH: Fiber to the home (optical fiber technology)
 HFC: Hybrid fixed-coaxial network (Cable network based on optical fiber)
 xDSL: Includes technological solutions ADSL and VDSL (offers digital information transfer through copper wire)

Strong foothold in the growth markets

DNA's strategy summary

– The cornerstone of DNA's strategy is customer satisfaction

Main assumptions behind our strategy

1 Growing demand for faster, good quality mobile connections accelerates	2 Seamless, multi-channel customer experience and personal customer relationship - digitalization and physical channels unites	3 The best ecosystems and end-customer solutions globally, gets stronger foothold	4 B2B: Mobile work, digitalization, IoT, and centralized ICT sourcing
--	---	--	--

Our vision and mission

THE MOST SATISFIED CUSTOMERS

We want to make our customers' lives more inspiring, productive and entertaining. We provide connections, services and devices – in a clear, easy and cost-effective manner.

Aspired differentiation

Customer experience – especially in essential interaction with DNA
 Attitude – Service minded attitude according to our values

Positive memory trace as a goal – in every customer meeting

Our values

Fast – Straightforward – Bold

Our strategic goals

1. The most satisfied consumer and corporate customers
2. Industry-leading financial development
3. Faster than average market growth
4. Becoming one of the most desired employers in Finland

DNA's footprint in society

DNA Value Creation

What We Build On

A Team of Top Professionals

- Motivated employees all over Finland
- Committed partners

Fast High-Quality Connections

- Excellent mobile and fixed network
- Modern high-quality TV networks
- Service platforms, cloud services and data centre services

Intangible Assets

- Good reputation and strong brand
- Trust of customers
- Sustainable operations

Financial Resources

- Nation-wide store network
- Own mobile network and fixed network
- Mobile network licences
- Strong financial position and investment capacity

The DNA Way

Offering

Products and services develop with the customers' needs

Know-how

Skilled workforce enables high-quality customer experience

Understanding

Understanding the changing service needs of customers
Understanding of customer behaviour based on data and analytics

Our Values
Fast, bold, straightforward

Our Vision
The most satisfied customers in the market

What We Produce

Private Customers

- Voice and data services in mobile networks
- Voice and broadband services in fixed networks
- Entertainment and television services
- Device sales

Corporate Customers

- Mobile and communications solutions
- Corporate network solutions
- Corporate data security services
- Value added services for corporate networks
- Device sales
- Wholesale and virtual operator services

The DNA Footprint

Societal

- Building and developing the infrastructure necessary for the society: 4G networks cover 99.7% of the population, over 3.9 million mobile and fixed network subscriptions
- Digital connections and devices for consumers' everyday life
- Improving the competitiveness of corporate customers

Social

- Direct and indirect employment: About 1,600 own employees
- High employee satisfaction: 83% of employees consider DNA a great place to work (Great Place to Work® survey)
- Family-friendly workplace
- Development of employees' skills
- Excellent customer experience

Economic

- Profitability: Operating result EUR 124 million
- Investments: EUR 144 million
- Earning per share: Dividend payout ratio about 70–90% of free cash flow to equity
- Salaries and benefits: EUR 111 million
- Taxes and tax-like payments: EUR 176 million
- Purchases from suppliers: EUR 507 million

Environmental

- Direct and indirect CO₂ emissions: 208,000 tCO₂ (Scope 1, 2 and 3)
- Development of the network's energy efficiency
- Reducing customers' CO₂ emissions with DNA solutions
- Recycling of terminal equipment at DNA Stores

We make sustainable business

Efforts to improve digital inclusion

DNA promotes digital inclusion in Finland by investing in a high-quality, extensive network, fast connections, easy-to-use products and services, and an excellent customer service. In 2019, DNA will launch a corporate responsibility programme to tackle digital inequality among senior citizens, children and youth, and disadvantaged families, in cooperation with prominent Finnish charitable organisations.

Record high job satisfaction

DNA aims to be one of the most desired employers in Finland. In 2018, in the Great Place to Work® research, DNA was awarded as the second best workplace in Finland in the category of large organisations. In addition, DNA was the first publicly listed company – and the first large company in Finland – to be recognised as a Family Friendly Workplace by the Family Federation of Finland.

Reducing climate impact

DNA has signed up to Society's Commitment to Sustainable Development with a commitment to reduce the company's climate impact. DNA's objective is to reduce indirect greenhouse gas emissions from the use of energy (Scope 2) by 100% by 2023. The reduction will be achieved by using renewable energy and improving energy efficiency.

Business review

July-September 2018: DNA's profitability was all-time high

For 2018, as required by the IFRS standards, the graphs and tables contain figures reported according to the IFRS 15 and IFRS 9 standards adopted on 1 January 2018 and, as required by IFRS 15, figures adjusted are disclosed as if they were prepared under 2017 revenue guidance. The comparative analysis in the presentation is disclosed as if the figures were prepared under 2017 revenue guidance.

- 

Net sales increased 4.3% and amounted to EUR 228.2 million (218.8)

 - Mobile device sales were up 34.9% from the reference period
 - The growth was fuelled by strong mobile device sales and mobile service revenue, which was boosted in particular by the growth of the mobile subscription base and the favourable development of ARPU

- 

Good development of mobile service revenue improved profitability, EBITDA share of net sales was 33.5%

 - EBITDA increased 5.4% and was EUR 76.5 million (72.6); positive development was driven by growth in mobile service revenue and improved operational efficiency
 - The operating result increased 3.4% from strong reference period and was EUR 38.6 million (37.3), percentage of net sales was 16.9% (17.0%)

- 

Strong momentum of operational KPI's

 - Revenue per user for mobile communications (ARPU) increased slightly and amounted to EUR 18.9 (EUR 18.5)
 - The subscription turnover rate (CHURN) was at a low level and was 15.8% (19.1%)
 - Mobile subscription base grew by +65 000 from the reference period and was 2,855,000 subscriptions, growth from the end of June 2018 +28 000 subscriptions
 - Subscription base for fixed broadband and cable-TV services increased by +32,000 and totalled 1,105,000 subscriptions

Notes

*Mobile service revenue = revenue generated by mobile subscriptions. Consumer and corporate mobile communication and mobile broadband services, corporate M2M services and corporate mobile virtual network operator (MVNO) services.

July-September 2018 – Net sales and EBITDA increased

Growth of mobile service revenue (+5.7%) and strong mobile device sales (+34.9%) boosted quarters' net sales

EBITDA¹ improved 5.4% from the reference period and margin was +33.5%

Operative capex² increased year-on-year, whole year 2018 expected to remain at a similar level to 2017

Operating free cash flow³ decreased from the reference period level

Notes

1. EBITDA excluding items affecting comparability
2. Operative capex excluding spectrum license payments
3. Operating free cash flow defined as comparable EBITDA minus operative capex

Notes
1. Compared to January-September 2017
CHURN = Customer turnover rate

Mobile communications network and fixed network subscription bases grew

Mobile communication network subscription volumes up by 65,000 from the reference period

Our customers kept moving away from using fixed-voice subscriptions

Fixed network broadband subscription base increased by 24,000 subscriptions

Cable TV subscriptions increased by 8,000

Subscriptions in mobile network increased strongly during Q3 2018

Key highlights in July-September 2018

- Mobile communication subscription volumes were up 65,000 year-on-year
 - ✓ + 7,000 prepaid mobile subscriptions
 - ✓ + 58,000 postpaid mobile subscriptions
 OR
 - ✓ + 30,000 new Consumer Business customer subscriptions
 - ✓ + 35,000 new Corporate Business customer subscriptions

- Mobile subscriptions increased from the end of June 2018
 - ✓ + 19,000 consumer customer subscriptions
 - ✓ + 9,000 corporate customer subscriptions

Steady growth in 4G subscription base and smartphone penetration

4G subscription base and smartphone penetration

Key highlights in July-September 2018

- 4G subscription base penetration increased in Q3 and was 59,6%
- Smartphone penetration continued to increase and was 77%
- Practically all phones sold in the market were smart phones and mostly 4G models

Notes

1. Share of mobile postpaid handset subscriptions in Consumer business, includes subscriptions with data transfer of 50 megabits per second or more

2. iOS (iPhone)-, Bada-, MeeGo-, Android-, Blackberry-, Symbian 3~ and Windows phones of the total phone base

About 91% of all mobile data usage was transferred in 4G network

Mobile data traffic (GB, '000)

Key highlights in July-September 2018

- DNA's 4G mobile data traffic increased in the third quarter 38% from the reference period
- DNA's total data traffic volume in the mobile communications network increased by 30%, also data volume per subscription continued to grow
- In the past two years, the quantity of data transferred in DNA's mobile communication network has increased by 120%, and the trend is expected to continue with the expansion of 5G

Mobile data traffic (GB, '000)

DNA's customers use most mobile data per subscription

Tefficient's report: DNA's customers use the most mobile data per subscription

Gigabytes/reported sim/month, reported operators 1H 2018

World's top 3

Mobile data usage per subscription continues to increase

- DNA's average data volume per mobile subscriber in the first half of 2018 was around 19.8 gigabytes/month
 - In 2017, DNA's mobile data usage per subscription was still 15.9 gigabytes per month
 - In August 2018, an average of 21 gigabytes of mobile data per subscription was used in DNA's network
- The proliferation in mobile viewing of moving images is the key factor in the growth of mobile-network data traffic

Source: Tefficient: <https://tefficient.com/more-data-always-for-more-it-happens/>

In the 3rd quarter, the subscription turnover rate (CHURN) was low; 15.8%

Mobile postpaid ARPU increased year-on-year

Mobile communication CHURN (postpaid) decreased compared to the reference period

Key highlights in July-September 2018

- ✓ Demand of 4G subscriptions continued to grow steadily
 - 4G subscription base 59.6%¹
 - 4G subscription base has increased 7.3 %-points year-on-year (Q3/2017: 52.3%)¹
 - 1.9% increase in ARPU from the reference period

- ✓ High customer satisfaction and our ability to react fast to competitors' campaigns decreased CHURN
 - CHURN was 15.8% (Q3/2017: 19.1%)
 - CHURN was at the level of previous quarter (Q2/2018: 15.4%)

Notes
 1. Share of mobile postpaid handset subscriptions in Consumer business, includes subscriptions with data transfer of 50 megabits per second or more
 ARPU = Average revenue per user
 CHURN = Subscription turnover rate

Growth in fixed broadband and cable-TV subscription base

Fixed broadband subscriptions in stable growth

Key highlights in July-September 2018

- ✓ Ongoing stable growth of consumer fixed broadband subscriptions, with net +24,000 subscriptions added
- ✓ Fixed-network broadband customers continue to switch to housing association broadband subscriptions and faster speeds

Steady increase in cable TV subscriptions

Key highlights in July-September 2018

- ✓ Stable cable-TV subscription base, with net +8,000 subscriptions added
- ✓ The use of streaming and on-demand video services continued to grow, while traditional TV viewing minutes decreased slightly

A high-angle, top-down photograph of a person with vibrant red hair, seen from behind, sitting at a light-colored wooden desk. They are wearing a grey and white checkered blazer and are actively typing on a silver laptop. The laptop screen displays a dark interface with a central logo and some text. To the left of the laptop is a white coffee cup on a saucer with a spoon. To the right, a blue smartphone is connected to a white power bank. The overall scene is brightly lit, suggesting a professional or office environment.

Figures adjusted are disclosed as if they were prepared under 2017 revenue guidance, excluding the impact of IFRS 15 standard adopted on 1 January 2018.

*Including IFRS 15

Mobile service revenue increased 5.7% year-on-year

Net sales for the quarter were supported by strong growth in mobile equipment sales and mobile services

Notes
*Including IFRS 15

Key highlights in July-September 2018

- Mobile service revenue grew 5.7% from the reference period
 - The growth was fuelled particularly by the growth in mobile subscriptions base and increased share of high-value 4G subscriptions
 - Average revenue per user (ARPU) grew 1.9% and was EUR 18.9
- Mobile equipment sales were strong and increased by 34.9%
- Revenue from fixed voice continued to decline as expected
- Mobile interconnection decreased slightly from the reference period
- Fixed non-voice has been impacted in particular by declined sales of pay TV

Profitability was boosted by increased mobile service revenue and improved operational efficiency

Consumer business in Q3

Net sales EUR 172.6 million (+6.2%)

- + Net sales were driven by the growth in mobile service revenue and mobile device sales
- + Revenue per user (ARPU)¹ increased +2.3% and was EUR 20.5

EBITDA EUR 59.1 million (+11.4%)

- + The increase was fuelled by the positive development of mobile service revenue and operational efficiency

Corporate business in Q3

Net sales EUR 55.6 million (-1.1%)

- + Corporate customers' mobile ARPU remained in the reference period's level and was EUR 13.3
- Fixed voice net sales continued to decrease

EBITDA EUR 17.3 million (-11.1%)

- EBITDA decrease was due to the decreased fixed voice service revenue and slightly higher costs of changes to customer products

Net sales, EUR million

Comparable EBITDA, EUR million

Notes
 1. Consumer mobile postpaid handset subscription ARPU
 ARPU = average revenue per user
 *Including IFRS 15

Operative CAPEX increased year-on-year

Operative capex¹ were 14.9% of net sales in July-September

EUR million

Notes

1. Operative capex exclude spectrum license payments

*Including IFRS 15

Key highlights in July-September 2018

- Operative capital expenditure increased 39.7% from the reference period and were EUR 34.1 million (24.4), or 14.9% of net sales (11.2%)
 - Operative Capex in 2018 is expected to remain at a similar level than in 2017
- Major individual items included in capital expenditure in the review period are 4G network capacity expansion, fibre optics networks and transmission systems
- Payment for 700 MHz spectrum (in February) were EUR 4.4 million

Operating free cash flow at a good level

Cash flow summary

The man on the right is wearing a dark blazer and a brown sweater, looking at a smartphone. The walkway has a metal railing and a glass wall. The background shows a modern interior with a ceiling of recessed lights and a green exit sign.

**Strategic cornerstones,
market outlook
and
financial
objectives**

We continue to strengthen the foundation of our competitiveness

Team of top experts

4G, Fibre-Optic and cable networks and service platforms

Modern IT systems and analytics

Speed and cost-effectiveness

We are on track to achieve our strategic objectives

The most satisfied consumer and corporate customers

DNA is a great place to work: DNA aims to be one of the most desired employers in Finland

Industry-leading financial development

Faster than average market growth

Market outlook for 2018

Bank of Finland forecasts GDP growth to be moderate. We expect market for mobile network services to grow in 2018 and competition to remain intense.

Mobile data use will continue to grow as users increase their use of digital services and OTT video services.

Use of mobile devices that have a constant network connection and IP-based communication solutions is increasing strongly among both business and private users.

The SMS and voice revenue in the mobile communication network is forecasted to decrease somewhat.

In the consumer market, demand for broadband and entertainment services in particular is expected to increase.

The market for fixed-network voice services is expected to continue declining. The demand for traditional pay-TV services is expected to decline further.

The demand for Industrial Internet solutions, and subsequently for M2M subscriptions, is expected to grow.

Growing demand of cloud and entertainment services increases the demand for high-speed and high-performance networks.

Financial objectives and dividend policy¹

DNA raised its financial guidance² for 2018

- 11 October 2018 guidance update: DNA's net sales and comparable operating result are expected to improve somewhat in 2018 compared with 2017. DNA's financial position and liquidity are expected to remain at a healthy level.

Mid-term financial targets

- Net sales growth – faster than average market growth
- EBITDA margin of at least 32%
- Operative capital expenditure³ less than 15% of sales

Leverage policy

- Net debt/EBITDA less than 2.0
 - Can be temporarily exceeded in case of potential attractive bolt-on in-market M&A opportunities

Dividend policy and distributable funds in 2018

- Target dividend payout of 70%-90% of free cash flow to equity
- DNA distributed dividend of EUR 0.46 /share and a capital payment of EUR 0.17 /share, in total EUR 0.63 /share. Also, an extra capital payment of EUR 0.47 /share was paid.
- Total payout EUR 145 million, 7.0% payout ratio (as of 31 Dec 2017)

Notes

1. DNA's mid-term financial objectives do not incorporate the impact from the adoption of IFRS 15 on 1 January 2018 and IFRS 16 on 1 January 2019. DNA continues to evaluate the impact of the adoption of these standards and will update its objectives as needed.

2. DNA's guidance for 2018 is disclosed as it was prepared under 2017 revenue guidance and does not currently incorporate the potential impact from the adoption of IFRS 15 as of 1 January 2018.

3. Operative capex excluding spectrum license payments

DNA's Consumer business (74.3% of net sales in 2017)

DNA provides its consumer customers with diverse services for communication and entertainment: smart phones, tablets and accessories; voice services in mobile and fixed networks; broadband services in mobile and fixed networks; and diverse entertainment services in cable, terrestrial and broadband networks.

Smart phones and subscriptions

Broadband subscriptions (mobile and fixed)

Modern entertainment services

STRENGTHS

- Strong retail and online store sales
- We aim to provide straightforward, high-quality service in every channel, every time
- Clear and competitive product-service combinations for customers

GROWTH DRIVERS

- TV and entertainment business
- Mobile data market
 - ✓ The increased adoption of smart phones, tablets and other smart devices as well as the wider availability of 4G speeds significantly boosted data transfer volumes

DNA's consumer business in brief

Customer satisfaction is the key

We improve the quality of our customer service and the efficiency of our operations systematically, introduce easy-to-use services needed by customers. Our customer service metrics have shown positive development in 2017 and DNA Store received record-high scores in NPS.

Mobile communications

Our extensive and fast 4G network make us well-equipped to provide our customers with increasingly faster, high-quality connections. Our ARPU has strengthened in particular because DNA's customers switch to faster 4G subscriptions.

Entertainment Business

We want it to be easy for everyone to find the entertainment content they want, regardless of the technology or devices. Putting our cable, terrestrial and broadband customers together, we have over million television service customers.

Fixed broadband

Households are increasingly using both fixed-network and mobile broadband. The steady growth of DNA's fixed-network broadband subscription base grows steadily and the base increased by 24 000 subscriptions in Q3 2018 compared to Q3 in 2017.

Growth drivers

Increasingly networked lifestyles, new TV and home entertainment services and growth of mobile data volumes are trends boosting operators' business.

Net sales increased

Net sales of our Consumer Business increased by 4.3% in 2017, amounting to EUR 659 million. Net sales were driven by the growth in service revenue and good mobile device sales.

DNA's Corporate business (25.7% of net sales in 2017)

DNA provides easily deployable and high-quality mobile and fixed network communications and network services for companies and communities.

Mobile Network and Communications
Services

Enterprise Network Services

Enterprise Network Security

Enterprise Network Solution

IoT – Smart Connectivity

STRENGTHS

- Extensive own fibre, backbone and distribution networks
- Extensive mobile network, largely with IPv6 protocol
- Strong regional presence strategic priority
- Excellent price-quality ratio and customer-oriented product development

GROWTH DRIVERS

- The digitalisation of businesses and increasing use of cloud services require fast and high-quality network services
- The Industrial Internet and IoT require more intelligent controlling and new technologies

DNA's Corporate Business in brief

Customer satisfaction is the key

Strong partner for companies, public corporations and integrators. Good services and expert customer service.

Comprehensive, fast and reliable network

High-quality networks are playing increasingly important role in the ecosystem of machines, information and people as the volume of data traffic is increasing. The network must be reliable and suited to the company's needs.

Customer numbers are increasing

Business in the segment developed well in 2017: there was strong interest in corporate network solutions and the corporate mobile subscription base grew by 79,000 subscriptions, or 16%.

Pioneer in new ways of working

Digitalisation is speeding up change in the working culture. We are creating new ways of working with the help of innovative tools, fast connections and reliable network services.

Industrial Internet

85% NB-IoT (Narrow Band Internet of Things) coverage in Finland. In 2017, DNA's M2M subscription base grew some 15%.

Net sales remained steady

Net sales remained at a similar level year-on-year, amounting to EUR 227 million. Operating result increased by 13.7% and came to EUR 19 million.

Significant new agreements and extensions to existing contracts with enterprises and the public sector

City of Vantaa

- A three-year extension agreement on the delivery of an even larger set of telecommunications services
- The solution includes all connections of the city, the LANs and WLANs of offices, firewall services and the Internet connections, online authorisation solutions and optionally a cyber security service
- Contract period initially three years, after which continues until further notice
- The total value for the first three years is over EUR 8 million

Large listed Finnish industrial corporation

- A three-year agreement on the delivery of WAN network in Finland, mobile call centre and over 1,000 mobile subscriptions
- The total value of the agreement is over EUR 2 million

Finnish University and Research Network Funet

- CSC – IT Center for Science and DNA Plc have agreed on the delivery of fibre optic connections for the Finnish University and Research Network Funet
- With the agreement, the number of fibre optic connections provided by DNA for the nationwide Funet data communications network increases significantly. Furthermore, the Funet network will be expanded across Finland with several new connections provided by DNA

Additional information on corporate responsibility and sustainability

- DNA's corporate responsibility reporting is conducted in accordance with the Global Reporting Initiative (GRI) framework and published annually with the Annual Report
- DNA's Corporate Responsibility Reports are available on our investor website: <https://corporate.dna.fi/reporting>
- DNA's Corporate Responsibility Report has been assured by an independent external party
- DNA also reports to the CDP survey in terms of climate performance
